

MATHCOUNTS®

January 28, 2012

Dear San Diego Technical Society:

I know you agree with our mission that quality math education is essential for a technically literate population and global competitiveness. Our volunteer, coaches and sponsors of the San Diego Chapter MATHCOUNTS Competition are proud to be actively encouraging academic excellence in mathematics among middle school students in our community.

The San Diego Chapter MATHCOUNTS Competition total program budget for this year is \$2,000 for 21 participating local schools. This money will pay for students' and coaches' competition expenses including meals, awards, rental equipment and office supplies that are not covered by the school entry fees paid to the national organization. I am requesting your support of the 2012 San Diego Chapter MATHCOUNTS Competition to be held at UCSD on February 25. We typically receive between \$100 and \$300 per society. In return for your contribution, our Chapter will acknowledge your generosity by listing your company on the day of the competition and in press releases to print and broadcast media.

Thank you for considering a funding San Diego MATHCOUNTS. More information is available at www.mathcounts-ca.org/sandiego.html.

Please make your check payable to CSPE – San Diego with a memo for MATHCOUNTS and mail to SD MATHCOUNTS Treasurer, 888 Brockton Street, El Cajon, CA 92020.

Sincerely,

Peter Livingston, P.E.
San Diego MATHCOUNTS Coordinator
